REMINDERS FOR SENIORS

Use the many college application resources provided by the Counseling Dept., including the [College App. Guide by Type](#), [College App FAQs](#), [Four-year College Checklist](#), and [Creating and Finalizing Your College List](#) to make sure that you are completing all the necessary steps and entering the correct information for CCA and our courses and schedule.

Important:

- Send official SAT/ACT scores to all colleges that require them. Some colleges allow you to self-report your ACT/SAT scores, and send official scores only after you have been admitted and intend to matriculate. **Verify the policy for each of your schools.**
- Pay careful attention to all emails and instructions from each college. They may request additional materials or note that they have not received required items.
- Teachers and counselors are *not* notified of any changes to your Naviance or Common App college lists. If you need to make changes, you must see your teacher(s)/counselor in person to follow-up.
- **[Withdrawing Apps After ED Admission:](#)** When students apply under an Early Decision plan, they agree to withdraw their applications to other colleges if admitted. To do this, students must contact these other colleges directly. **To withdraw or cancel a UC application, contact each school per instructions [here](#).** The Common Application does not have a mechanism for withdrawing submitted applications. (Students seeking financial aid do not need to withdraw other applications until they have received notification about financial aid from the admitting Early Decision institution.) College applications cannot be deleted or canceled in Naviance, but students who commit to an ED school should notify their counselor and teachers, set their attending college and update results in Naviance.
- **[Update your Naviance account as you receive admissions decisions:](#)** To edit/update, click on the pencil icon next to any college under *Colleges I'm Applying to*, select the decision from the drop-down menu, and click *update* at the bottom of the page.
