

10th Grade Counseling Calendar

Study and earn your best grades. You will have far more options for college and scholarships if you keep your grades up.

August - December

Read the [Counseling, College & Career Center Newsletter](#).

Continue extracurricular activities (admission representatives look for commitment and leadership in student extracurricular activities when considering applications).

Use [career search tools](#) to identify careers that match your interests and personality. Research career paths and fields of study that lead to career fields in which you are interested.

Update your [résumé](#).

January - March

Attend the [10th Grade Presentation](#).

Review the high school curriculum requirements and the requirements for four-year college. To be competitive for most colleges, your schedule should consist of *at least* 4 college preparatory classes per year (2 per term), including:

- English
- Math
- World Language
- Lab Science
- History/Social Studies
- Visual/Performing Art
- Electives

During course selection, review your academic record and get suggestions from your counselor about how to strengthen your candidacy for the colleges in which you are interested.

If required or recommended, take an [SAT Subject Test](#), if you have completed a course that covers the content and you are ready and well-prepared. Be sure to register early for the best test location.

April - June

Take an [SAT Subject Test](#) if you have completed a course that covers the content and you are ready and well-prepared. Be sure to register early for the best test location.
