Course Description:

This course is designed to help students develop both the business skills and the music/performance skills needed to be successful as a professional in the music industry. Students will learn the essential skills needed to work in a number of sectors of the industry including booking, contracts, publishing and copyright laws, promotions, songwriting, recording and performance skills. They will also receive instruction in music theory, performance skills, and proper rehearsal techniques. At the conclusion of the course, students will turn in a portfolio of work from these areas of study that can be used for placement in internships and employment in the music field.

This is a CTE enrichment course, therefore, course standards and expectations are career and industry oriented. Students are expected to be self-motivated and independent, meet deadlines, and work efficiently and effectively in small groups

Grading :

Grading is based on rehearsal etiquette, in class performances, music industry projects, music theory quizzes, and our final class performance. The majority of this work happens in class, therefore attendance is crucial.
